

# Tuition-Free Machinist Training

## MANUFACTURING 2000 (M2K) Machinist Training Program

New Century Careers' MANUFACTURING 2000 (M2K) Machinist Training Program offers **tuition-free training and placement assistance** to help you begin a successful manufacturing career.

The M2K Program trains you with the necessary skills to become a machine operator or entry-level machinist.

M2K is a PA State Registered Pre-Apprenticeship Program.

## What will I learn?

The M2K Program, offered on **Pittsburgh's South Side and at Eastern Westmoreland Career & Technology Center (EWCTC) in Latrobe**, provides 3 levels of training up to 600 hours. These sessions include hands-on experience, as well as special sessions focused on professional development and resume writing.

### **Three Levels of Training available:**

**Level 1** - Manual Machine Operator Trainee

**Level 2** - Manual Machine Operator/Machinist Trainee

**Level 3** - Manual/CNC Machinist Trainee

## What will I learn?

M2K students learn the basics of operating:

- Lathes
- Vertical Milling Machines
- CNC Machines
- Pedestal Grinders
- Saws
- Drill Presses
- Surface Grinders
- Various Shop Tools

## What are the class options?

**Pittsburgh:** 9:00 A.M. - 3:00 P.M., Mon. - Fri.

**Pittsburgh:** 4:00 P.M. - 10:00 P.M., Mon. & Wed.

**Latrobe:** 4:00 P.M. - 9:00 P.M., Mon. - Fri.

## How much does it cost?

Training is made possible through a variety of governmental or charitable funding sources, as well as manufacturing employer contributions. **There is no cost to qualified students** who are accepted into the program.

## How do I register?

Registration is offered on an on going basis throughout the year. Contact New Century Careers to schedule a tour or to receive an application packet.

New Century Careers administers enrollment for all sites (Pittsburgh and Latrobe). Start dates may be subject to change depending on enrollment.

### **Applicants must:**

- Be at least 18 years of age
- Have earned a High School Diploma or GED\*
- Submit a completed application packet, including High School Diploma/GED, two reference letters, a brief questionnaire, and an application form
- Demonstrate successful performance on an industry-developed aptitude test

\* *Some exceptions apply.*

## Why manufacturing?

Manufacturing is the second-largest source of private sector employment in southwestern PA. Manufacturing accounts for 15% of regional employment.

The average annual wage for machinists in PA is \$44,290\*\*. The vast majority of these jobs do not require a college degree. Instead, most manufacturing jobs require work-related and on-the-job training.
