NEW CENTURY CAREERS- Programs

MANUFACTURING 2000 (M2K) Machinist Training Program

The M2K Program, a PA State Registered Pre-Apprenticeship Program, is offered at NCC's Anselmo Training Innovation Center located in Pittsburgh and is offered at Eastern Westmoreland Career and Technology Center in Latrobe.

The M2K program trains individuals to become machine operators or entry-level CNC/Manual machinists. There are 3 levels of training ranging from 250 hours to 600 hours. This program is provided at NO COST to qualified applicants. Training is made possible through the efforts of area manufacturers and local foundations. Interested candidates should contact Samara Rosenberg at (412) 258-6617 / rosenberg@ncsquared.com or Eric Pferdekamper at (412) 745-1014 / pferdekamper@ncsquared.com.

Career Placement Services - In addition to providing machinist training, New Century Careers provides career readiness and placement assistance for M2K trainees into SWPA manufacturing companies. Learn how your company can partner with New Century Careers in hiring your next machinist!

New Century Job Shop

New Century Job Shop allows M2K trainees, under the supervision of NCC's shop manager and experienced instructors, to produce partner company components while learning valuable new skills to support manufacturers in developing the next generation of entry-level machinists. Learn more about how New Century Job Shop can assist your company. Contact Patrick Bendel at (412) 258-6668 / bendel@ncsquared.com.

National Tooling and Machining Association (NTMA) Apprenticeship Program

The National Tooling and Machining Association (NTMA) Apprenticeship Program is designed to provide related instruction classes to support on-the-job training provided by employers. This 4-year apprenticeship program provides a comprehensive curriculum that keeps pace with current industry standards taught by instructors with industry experience. Apprentices also have the opportunity for hands-on NIMS credentialing to help them in their advancement and understanding of their field. The credentials they earn are standards-based and recognized nationally. Fall classes begin in September. Enrollment opens in July. Classes are offered at Central Westmoreland CTC, Northern Westmoreland CTC and Anselmo Training Innovation Center on the South Side of Pittsburgh. For more information, contact Eric Pferdekamper at (412) 745-1014 / pferdekamper@ncsquared.com.

New Century Careers Group Non-Joint Apprenticeship Sponsor (NCC GNJA)

Registered and approved by the PA State Apprenticeship Council, the NCC group non-joint apprenticeship program addresses the needs of small to medium sized companies to provide the administration of a registered apprenticeship program for their employees. Currently there are two state approved and registered programs: 4-year Machinist Apprenticeship and 2-year Robotics Technician Apprenticeship. Each provides the required minimum of at least 2000 hours of on-the-job training per year provided by the employer, and 144 hours per year of related theory and instruction provided by approved local vendors. Improve the skills and safety of your workforce while also investing in the long-term success of your business. Contact Neil Ashbaugh at (412) 212-0828 / ashbaugh@ncsquared.com to learn more.

Robotics Technician - Two Year Apprenticeship

The demand for highly-skilled technical professionals at robotics, automation and advanced manufacturing companies throughout the region is higher than ever. New Century Careers is now offering a two-year PA State-Registered Robotics Technician Apprenticeship Program. Apprentices will learn through classroom instruction, online modules, laboratory experiences, and on-the-job training while being a full-time employee earning wages. Contact Neil Ashbaugh, ashbaugh@ncsquared.com

Incumbent Worker Training Program

Incumbent training is an investment in your mutual success. Explore the advantages of the cost-effective New Century Careers Incumbent Worker Training Program for the Southwestern Pennsylvania manufacturing workforce. These skills-based, customized training programs are designed to improve the skills of the employee while meeting the needs of the employer. Training locations - Pittsburgh (day or evening) or Latrobe (evening). Contact us to learn more about both our individual and group training options. Contact Patrick Bendel bendel@ncsquared.com to learn more.

BotsIQ

BotsIQ is a manufacturing workforce development program disguised as a high school robotics competition. It provides hands-on experience that allows students to discover the possibilities of a fulfilling career in manufacturing. To get involved, contact Michel Conklin at (412) 258-6676 / conklin@ncsquared.com or visit www.BotsIQpa.org.
